CHAPTER 1

INTRODUCTION

The purpose of this report is to present the performance of the municipality over the mid-term of financial year (1 July 2016 – 31 December 2016) of the current Financial Year using the Integrated Development Plan (IDP) and Service Delivery and Budget Implementation Plans (SDBIPs) as points of reference.

BACKGROUND

The report is developed within the context and prescripts of various pieces of legislation, guidelines and regulations governing performance management system, and these include the following:

- *Municipal Systems Act*
- *Municipal Planning and Performance Management Regulations*
- *Municipal Finance Management Act*
- *The White Paper on Local Government*
- *COGTA Guidelines*, and
- *Matjhabeng Local Municipality's Performance Management Framework*, amongst others.

Of the above, perhaps *The White Paper on Local Government* is the most significant as it not only introduces performance management system to local government as a tool to ensure developmental local government. Its significance can be seen in its conclusion that Integrated Development Planning, Budgeting and Performance Management are powerful tools which can assist municipalities to develop an integrated perspective on development in their area. It will enable them to focus on priorities within an increasingly complex and diverse set of demands. It will enable them to direct resource allocations and institutional systems to a new set of development objectives.

Section 72 of the Municipal Finance Management Act (MFMA) requires that municipalities review their financial results for the mid-year during January of each year. Section 52(d) of the MFMA requires that the Executive Mayor tables a report on the performance of the municipality to Council within 30 days after the end of the quarter. This report deals with both the financial results as well as the performance results.

Section 72 indicates that the following information must be provided:

- the monthly statements referred to in section 71 for the first half of the financial year;
- the municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- the past year's annual report, and progress on resolving problems identified in the annual report; and
- the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities

This report has the following additional contents:

1. Financial Performance
2. Performance of the municipality for period under review.

CHAPTER 4 – MUNICIPAL MANAGER’S ASSESSMENT PERFORMANCE

1. INTRODUCTION

- This report refers to progress on work performed for the first six months of the current financial year. It reflects areas where achievements were recorded, where there were challenges and areas where changes are recommended.

- It is important to reflect the following areas that require attention from the non-financial report:
 - The fourth instance has been brought about by the Auditor General’s report on the extent of the performance report being aligned to the IDP and SDBIP. One of the critical comments made was that there are instances where the performance report was not aligned to the IDP and that reflected a situation where Departments made changes to the SDBIP without updating the IDP.

 - The other area that the Auditor General queried us and that is a continuous worrisome area that requires our change of response was the fact that the volume of work that Departments plan to do, do not end up being reported on. This situation got reflected only when there were questions raised about the Municipality not complying with the law in specific circumstances.

2. RECOMMENDATIONS

The above state of affairs requires the Municipality to take proactive steps to improve the situation and among a number of critical recommendations to be made are the following:

1. That the financial and non-financial Report for a period of Six Months (July – December 2016) in terms of Section 72 of the Municipal Finance Management Act, Number 56 of 2003, be noted;

2. That both the Financial and non-financial Reports for period of Six Months (July – December 2016) in terms of Section 72 of the Municipal Finance Management Act, Number 56 of 2003, be submitted to Provincial and National Treasury.
