PART III: MUNICIPAL DEBT RELIEF

24. EXECUTIVE SUMMARY

MFMA Circular no.124 states that the Minister of Finance's conditions for the conversion of portion(s) of the Eskom loan into government includes that Eskom completely write-off the principal debt and interest and penalties of municipalities that owe Eskom as of 31 March 2023 (excluding the current Eskom March 2023 accounts over a three-year period. The total outstanding amount as of 31 March 2023 is R5 392 942 823.

The municipality's application for Municipal Debt Relief must include the municipal council's commitment (in the format of a council resolution) to fully meet the conditions for Municipal Debt Relief. The National Treasury will consider each application on merit. Furthermore, the relevant Provincial Treasury must demonstrate and adhere to the conditions set out in MFMA Circular no.124. Once the municipality's application is approved, council must demonstrate its compliance to these conditions to the National Treasury's satisfaction for a continued minimum period of 36 consecutive months. Council to note the conditions of Municipal Debt Relief included in Attachment A - MFMA Circular No. 124.

The municipality consulted with SALGA regarding condition 6.14 and the below was send to the municipality:

"With respect to condition 6.14, the following can be stated: In the event that Matjhabeng LM does not comply with the debt conditions, we will undertake the necessary section 78 assessments as required by the Municipal Systems Act (32 of 2000) and in accordance with the prescripts of the Act. This will ensure that there is an alternative option prior to any request to NERSA to revoke the distribution licence." See Annexure B.

The municipality's Eskom Debt Relief Application was submitted to National Treasury after Council's approval, subsequently National Treasury requested additional information which was also submitted. The additional information consisted of a signed Municipal Debt Relief Monitoring Plan 2023/24, smart metering roll-out project plan and Eskom payment projections. The smart meter application is still assessed by National Treasury. The municipality made a payment of R125 million to Eskom in July 2024, R10 million in August 2024 and R23 million in September 2024.

The municipality is at 71% average in terms of compliance as per the assessment from Provincial Treasury. On 5 November 2024 the municipality and provincial treasury meet to discuss the alignment of the mSCOA data strings, feedback on the in-year reports and debt relief. An action plan has been developed to address the aforementioned. The municipality is still included in the debt relief programme as per assessment from Provincial Treasury.

25. BACKGROUND AND MOTIVATION

1. The Minister of Finance, in the 2023 Budget Speech announced conditional debt relief for all municipalities that owes Eskom on 31 March 2023 (*including interest and penalties*). The Municipal Debt Relief does not apply to any municipality's March 2023 current Eskom account. Any municipality that owes Eskom arrears, interest or penalties on 31 March 2023 qualify for this relief subject to Council's successful written application to the National Treasury. The National Treasury issued the conditions for Municipal Debt Relief and the application process in MFMA Circular No. 124. There are several conditions, all essentially aimed to restore a set of *basic minimum financial management best practices* in any municipality owing Eskom and change the municipal culture of not paying bulk suppliers and a municipal and Eskom culture to not collect revenue.
2. A critical component of the conditions therefore relates to achieving a funded budget. This encompasses cost-reflective tariffs, ensuring a complete revenue base, aligning spending patterns to collection levels, and optimising and enforcing collection by using both electricity and water as collection tools. A municipality that is unable to pay its creditors must be prudent when spending and borrowing until financial health is restored, the conditions enforce this prudence. Municipal finances should focus on delivery of the core mandate of basic services. The conditions necessitate the ring-fencing/ prioritisation of finances for this purpose.
3. If the municipality fails to meet any of the conditions during the period of the Municipal Debt Relief:
 - a. The benefits of the Relief to the municipality will immediately cease;
 - b. This means that Eskom will be obliged to implement its credit control and debt management policy on the defaulting municipality and the municipality must immediately start repaying its Eskom arrears, interest and penalties;
 - c. Eskom may resume any legal proceedings (relating to the municipality's arrear debt, interest and penalties as of 31 March 2023); and
 - d. The normal penalties applicable to the wider local government will also apply, including that the National Treasury could institute financial misconduct and/ or criminal proceedings against any official responsible for the municipality failing to meet the conditions, and a possible immediate invoking of section 216 of the Constitution, etc.
4. The inability to pay creditors is a national problem arising from prolonged financial mismanagement compounded by changing and deteriorating economic conditions. Specifically, in the municipality's case, prolonged defaults on Eskom and Water Boards accounts have negatively affected the

municipality's financial viability and sustainability. As a result, the municipality's recent financial analysis, and AGSA findings indicates that it is no longer a going concern. It highlights that most defaulting municipalities, including Matjhabeng, are not generating sufficient funds to sustain their operations, with inefficiencies in Municipalities and Eskom further aggravating this national problem.

The implementation of the Debt Relief is subject to the municipality making a written application to the National Treasury in the specified format, which includes a written motivation by the CFO and Accounting Officer, a Council Resolution, a certification by HOD of Provincial Treasury, and a submission to National Treasury on the GO-MUNI portal. Upon consideration of the Municipality's application National Treasury will determine whether our Municipality qualifies to benefit from the relief package.
